J. S. STEWART, PRINTER AND BOOKBINDER.

1891.

Please Read Carefully.

THE STEADY INCREASE in our business for the last thirteen years, is the best assurance of the satisfactory quality of the Seeds we send out. We buy the larger part of our seeds direct from the grower, and always from one who makes a specialty of one certain variety.

We annually grow samples from all our Vegetable and Flower Seeds, Seed Potatoes and Flowering Bulbs.

From Field Trials only, can we judge, by our own personal knowledge, the kind of stock our seeds produce.

Cheap Seeds we do not handle, but make the lowest prices possible for **Good Seeds**, and our steadfast endeavor is to sell the best quality to be obtained anywhere.

Tested Seeds. All seeds sold by us are critically tested as to germinating qualities. We buy them in bulk, and put them up ourselves, in quantities as ordered by our trade.

Market Gardeners, and those who use a large variety of seeds, are specially invited to call, and will be treated in the most liberal manner.

EXTRAS.

We shall include, with each order of one dollar's worth or more, a package of something new and valuable in flower or vegetable seeds or bulbs, free of charge.

SEEDS BY MAIL.

All fine seeds, except peas, beans, corn, grain and grass seeds, will be sent free by mail at catalogue prices. Fifteen cents per quart must be added for postage on peas and beans, and ten cents per quart on sweet corn.

FLOWER SEEDS.

We offer this season an entirely new and choice stock of flower seeds, by the ounce, in all the varieties usually called for, and the rarer kinds in packets. Our own mixtures of Pansy Seed, Sweet Pea Seed and Nasturtium Seed, are equal to any sold at three times the price.

BULBS.

Hyacinth, Tulip, Gladiolus, Crocus, Narcissus, Tube Rose, Lily of the Valley, Bermuda Easter Lily, Freesia, Chinese Sacred Narcissus, Madeira or Mignonette Vine, Tuberous Rooted Begonia, free by mail. For prices see Bulb List.

FRED. P. BURR & CO.,

Corner Main and Union Streets,

MIDDLETOWN, CONN.

Vegetable Novelties.

The following list of new things should be included in every order. Each one, as our trials last season proved, is of extreme merit, and no garden will be complete without containing them all. We have put each kind up in *liberal* packages, sufficient for any family garden. Price per packet, 15 cents.

YOSEMITE MAMMOTH YELLOW WAX BUSH BEAN.

In quality, equaled only by the Golden Cluster Wax Pole Bean. Pods eight inches long, thick and stringless. Our grower took extra care, and was able to secure a fair crop in excellent condition, notwithstanding the heavy Fall rains.

Large garden packet, 15 cents. Four packets, 50 cents.

EARLY GOLDEN CLUSTER WAX POLE BEAN.

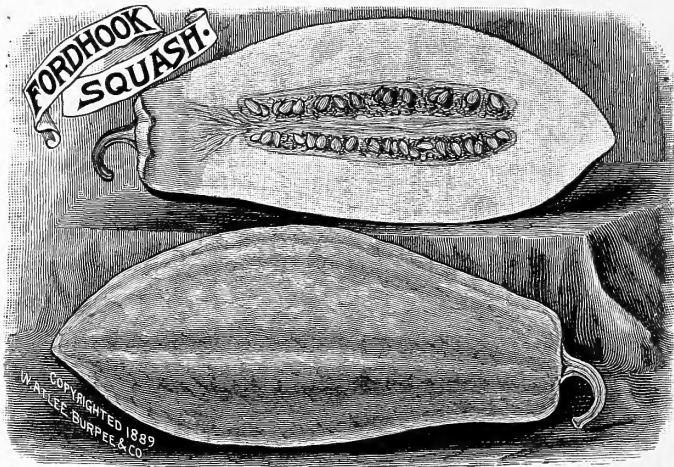

Immense, fleshy pods, *ten inches long*; stringless, crisp, and of delicious flavor. Very prolific; can be picked twice a week. Largest pole bean grown. A dozen poles will supply a family all through the season. Our seed was grown from original stock.

Large garden packet, 15 cents. Four packets, 50 cents.

JAPANESE BUCKWHEAT.

The earliest and most productive and profitable Buckwheat. As the straw is heavy and branching, it should not be sown so thickly as common Buckwheat. Our stock was grown in the mountainous part of Pennsylvania, the best Buckwheat-growing section in the world.

Price per bushel, \$1.25.

FORDHOOK SQUASH.

This new Squash is dry, very thick-meat, sweet, of a straw yellow color, and *keeps till June*. It is very prolific and solid, having a very small seed cavity, and ripens the earliest of all Winter varieties. A valuable Squash.

Garden packet, 15 cents. Four packets, 50 cents.

GIANT PASCHAL CELERY.

We have grown this new Golden Celery for two years; and pronounce it the best that we have ever seen. It grows two feet high; stalks very thick and broad; crisp and entirely stringless. It bleaches in five to six days with very little earthing up; is early and an extra good keeper.

Large packet,	-	15 cents.
Four packets,	-	50 cents.

NEW DWARF CHAMPION TOMATO.

The number of new Tomatoes is very large. We have grown nearly all, and consider the New Dwarf Champion superior to any. It stands stiff and erect, requiring no support, even when loaded with fruit. Is very early; of fine flavor; a great bearer; smooth; thick-meat and *very solid*.

Per packet,	-	-	10 cents.
Six packets,	-	-	50 cents.

NOTICE.

While we take the greatest care to have all seeds pure and reliable; soil, weather, insects, heat, cold, methods of planting, etc., are beyond the seedsman's control, and we do not give any warranty, and will not be responsible for the crop in any respect. If not accepted on these terms, the seeds must be returned at once, and money paid will be refunded.

1891.

VEGETABLE SEEDS

PRICE LIST

—OF—

Garden, Farm and Flower Seeds, HOLLAND BULBS, ETC.

All Seeds Less than One-Fourth ($\frac{1}{4}$) Pound at Ounce Price, Less than Four (4) Quarts at Quart Price.

DISCOUNTS TO DEALERS AND MARKET GARDENERS.

While we do not issue a wholesale list this season, we will meet the prices of any reliable dealers for the same quantity of seeds. Whether you have bought or not, we cordially invite you to visit our store and inspect the largest assortment of seeds ever shown in this county. An early call is suggested, as our largest customers order early and have their goods packed and shipped by April 1.

SEEDS IN PACKETS.

Twelve 5 cent packets Flower or Vegetable Seeds for 50 cents, free by mail.
Six 10 cent packets Flower or Vegetable Seeds for 50 cents, free by mail.

(Fine Plants, raised from our seed. See List of Plants).

BURR'S PEEP O' DAY PEA.

Five years ago, our attention was called to this remarkable pea by a friend in the wholesale seed trade. He told us of a grower, up near the Canada line, who, by careful selection yearly, had perfected a strain of Extra Early Peas, that was far ahead of any other known. We wrote immediately, but were able to obtain four bushels only. These, however, we sold in small lots all over the country, and from every quarter we received reports of their extreme earliness, as well as large yield. We have sold them under the name of "First and Best," but as many dealers sell a common strain of early peas under this name, we shall hereafter sell the same pea as **Burr's Peep O' Day.**

Pea growers will have to get up early, to get ahead of Burr's Peep O' Day.

STADDLE HILL, CONN.

Messrs. Fred. P. Burr & Co.:

DEAR SIRS: I used your "Peep O' Day" Peas last season for the first time; as I found that many "truckers," who were marketing the first peas in this section, were using your strain. They are the earliest peas I ever had, and remarkably productive. Your Northern Early Sunrise Potatoes are the earliest I ever grew. I dug mine June 11th; they were fully grown, ripe and mealy, with none too small to market. All the seeds bought of you were first class all the way through.

Truly yours, IRA J. TRENCH.

PEAS.

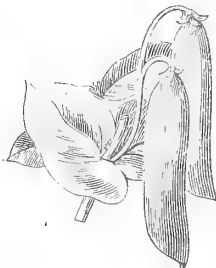

Our peas are all new crop, northern grown, from pedigree stock ; hand-picked, and free from bugs.

TO BUYERS OF SEED

We offer every possible advantage. A full variety; fresh stock; and the lowest market prices.

GRASS SEEDS.

Timothy Seed or Herd's Grass, Orchard Grass, German Millet, Hungarian Millet, Red Top, Rhode Island Bent, Kentucky Blue, Red Clover, White Clover, Etc.; market price.

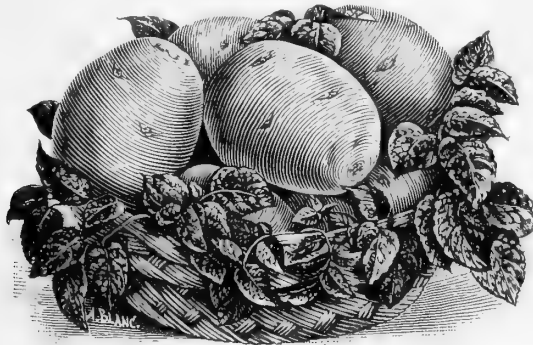

No seeds vary so much in quality, nor require more discrimination in buying.

(From Report of North Carolina Agricultural Experiment Station).

Farmers and others who use seeds need educating as to the real value and comparative cheapness of high and low grade seeds. The most efficient disseminator of weeds is man himself. He buys the weed seeds for cash, and sows them upon carefully prepared land where they will be sure to grow.

FIELD SEEDS.

Seed Rye, Wheat, Corn, Barley, Oats, Buckwheat, Spring Vetches or Tares, Ensilage or Fodder Corn, Etc.; market price.

New Early Sunrise.

POTATOES.

We have bought our northern seed potatoes from the same section for the last three years, and could print testimonials of their worth from dozens of our leading farmers. Will merely state, that last Spring we sold twelve hundred and seventy-five (1,275) bushels of seed potatoes in less than four weeks, and had later orders, that we could not fill, for as many more.

	Bushel.

One Hundred Pound Bag, - - - - -	2.00

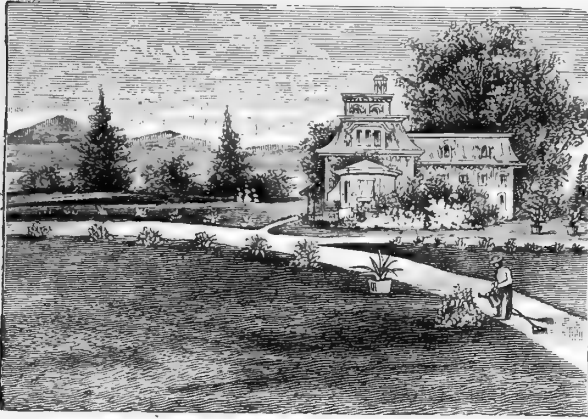

LAWN FERTILIZER.

High Grade Ammoniated Bone, 50 lb. bag, \$1.10; 100 lb. bag, \$2.00.

Using this fertilizer, you will not make the lawn unsightly by filling it with weeds that will be hard to eradicate. By applying just before a shower the grass will brighten up at once, grow thicker, and turn a dark, healthy green. Should be applied lightly, but frequently, through the year, to maintain uninterrupted growth. Try it.

NOTICE.—*Never apply while the grass is wet.*

WESLEYAN LAWN SEED.

Special attention is given to secure varieties that mature at different seasons of the year. Our Wesleyan Lawn Seed is composed of fine grasses only, suitable for a permanent, evergreen lawn. It is from the formula of an expert on grasses, and it contains no coarse nor bushy-

growing varieties. One quart will sow thoroughly a piece 15x15 feet. Do not stint the seed.

Price: Per quart, 20 cents; four quarts, 75 cents; per bushel, \$4.50.

White Dutch Clover Seed, for Lawns: Per $\frac{1}{4}$ pound, 15c.; per pound, 45c.

SALT FOR STOCK.

Mineral Salt, in lumps of 10 to 30 pounds each, 1 cent per pound.

Mineral Salt, in lumps of about 10 pounds each, \$1.25 per bag of 150 pounds.

Special price by the ton.

Hay Salt, clean and full strength, per sack of 3 bushels, \$1.25.

HORSE WHIPS.

We carry the largest stock of Horse Whips in this county, ranging in price from 25 cents to \$3.00.

Our \$1.75 Horse Whip is the best value in the country. It is made of the best quality whalebone and the hardest reed Java, covered with tough thong leather stretched on while wet. On becoming dry, the leather adheres so closely as to form a part of the whip itself. Nothing short of a blow that will mash the fibre of the whip, can break it; no fair usage can do so. The margin between our price and the actual cost is so low that we rely on the large sale which we are sure to have from drivers who appreciate a *first-class whalebone whip at a very low price*. We ask but one trial.

A BARGAIN.—We have bought 500 cheap Horse Whips from a maker who stopped making this quality, and closed them out cheap. They are selected rattan, double cover, enameled, water-proof finish, handsome ferrules, made and labeled to sell for 50 cents. *We sell them for 25 cents*. No profit, but just to draw attention to the largest stock of whips in this county. Will sell only two whips of this pattern to one person.

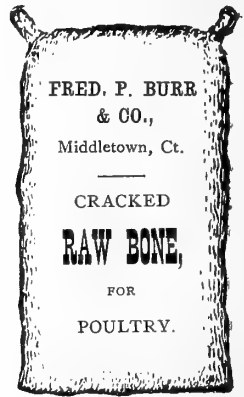

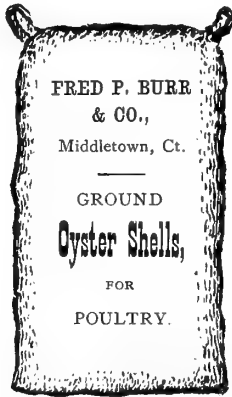

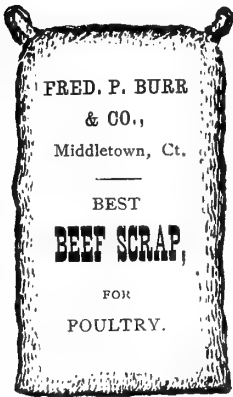

FLOUR.

For eleven years we have given much attention to supplying flour for family use, and are familiar with all the brands sold in this section. Buying the entire product of the wheat—bran, middlings and flour—we have a special advantage and can at all times give lowest prices. We especially recommend our *Buyers' Superlative Hungarian Process Flour* for bread, and the well-known *Sterling and Worthy Opal Flour* for pastry. We will exchange any barrel of flour that is not perfectly satisfactory, or cheerfully refund the money should it be preferred. Best quality Graham, New Process Rye, and Entire Wheat Flours. Breakfast Cereals of all kinds.

GRAIN AND FEED.

We have in storehouse at all times a full stock of Grain and Feeds, adapted to the wants of the season; and with car-loads always in transit from the West, can fill orders with promptness at lowest market price. Special prices on grain, meal and mill feeds to milk men and others buying by the ton for cash; half tons at ton rates. Price list and samples by mail on application.

POULTRY FEED.

No. 1 Beef Scrap, free from grease, etc., per hundred pounds, bag free, \$3.00

Best Raw Ground Oyster Shells, screened and graded, \$1.00 per hundred.

Best Raw Hard Shank Bone, cracked uniform, bags free, \$3.00 per hundred.

Special prices, for 500 pound lots, furnished on application.

Wheat Screenings, Barley Screenings, Shrunken Wheat, Rejected Wheat, Slightly Scorched Wheat, Buckwheat, Cracked Corn, Etc. We make a specialty of cheap grain for poultry, and will quote lowest prices by return mail, on application.

PARIS GREEN.

Warranted pure, in boxes only, - - - - - 25c. per pound.

FOR HORSES AND CATTLE.

Established 1872.

Incorporated 1887.

What Is It?

A purely vegetable food, containing no mineral-or other poisonous substance.

What It Will Do.

Regulate the bowels, prevent indigestion, loss of appetite, worms, botts, colds, colic, hide-bound, epizootic. Will make the coat glossy, improve the wind and staying power of horses.

TO DAIRYMEN AND FARMERS.

Cows will give more and richer milk, with less feed. Pneumonia, coughs, and common disorders prevented by Pratt's Food.

SPECIAL.

We have many other varieties of choice flowering plants, at very moderate prices. Among the plants we have sent to us in the Spring, from Plant Auctions, the ladies will find many of the new things, at half New York prices.

SUMMER BULBS.

For Summer Flowering.

Gladiolus.

Double Pearl Tuberoses.

The Summer Flowering Bulbs for Spring planting, contained in the following list, are inexpensive, easily grown, and produce some of the most brilliant and beautiful of all flowers. They require scarcely any care, and quickly make a gorgeous display. While we have made our prices extremely low, every bulb we sell is of the **FIRST QUALITY**. Sent free by mail at prices quoted.

GLADIOLUS.

Our mixture of Gladioli Bulbs is composed of extra fine Hybrids of the first quality, and must not be confounded with the common, cheap mixed sorts.

Extra large blue, - - - - -	.12
Mixed, all colors, - - - - -	.12

The Crocus is easily forced, and exceedingly pretty in the house. Set a few around the edge of any plants that do not fill the pot. They are sure to bloom, and take up hardly any room.

SNOWDROP—(Galanthus).

Per dozen, - - - - -	25c.
----------------------	------

E. FRANK COE'S FERTILIZERS.

34 YEARS IN CONSTANT USE.

As Popular To-day among all Classes of Farmers
as at any Period in their past History.

"NEVER BEATEN IN THE FIELD."

PORTLAND, CONN., Sept. 24, 1890.

My tobacco, this year, turned out one-third more, and extra quality, on E. Frank Coe's High Grade Phosphate than on the same piece where I used the same quantity of special tobacco manure that cost higher. The results were equally favorable with your Phosphate on my potatoes; have tried all the fertilizers sold in this section, and your Phosphate comes out ahead every season with me. Shall use no other next year.

(Signed),

Yours truly,

JOSEPH S. WORTHINGTON.

MR. E. FRANK COE:

MIDDLETOWN, CONN., Sept. 1, 1890.

Dear Sir:—I used E. Frank Coe's High Grade Phosphate this year, which I bought from Fred. P. Burr & Co., the Middletown seed dealers. On my potatoes, I planted every other row with E. Frank Coe's High Grade Phosphate, and on the alternate rows used the same quantity of special potato manure, marking each row, as I wished to make a thorough test. From the first, the growth was plainly in favor of your fertilizer. At harvest time, the yield was one-third greater on the rows where it was used. On my other crops the result was the same. I consider your phosphate better than the special manures, though it costs less, and I shall use no other fertilizer next year.

Very truly yours,

OLIVER MARKHAM.

E. FRANK COE, ESQ.:

MANSFIELD, CONN.

Among the long list of fertilizers, both special and for general use, I am confident that there is none more economical or reliable than yours for our various crops and soils. I have used it for nearly all our garden and field crops during the present season, with uniformly satisfactory results. Its solubility renders it especially valuable for such as need an early start to insure them against our annual summer droughts, as well as those grown later in the season. In a general trial, with special manure, I have found it nearly equal to the best, and far superior to some. Its reliability, under a great variety of conditions of soil, climate and crop, and its uniform quality, commend it as a safe and economical fertilizer.

L. P. CHAMBERLAIN,
Prof. of Agricultural and Supt. of Farm.

MIDDLETOWN, CONN., Sept. 1, 1890.

I used E. Frank Coe's High Grade Phosphate on all my market truck, peas, corn, beans, potatoes, tomatoes, etc., and consider it the best fertilizer I ever used, though costing less money than other brands that I have formally used. The High Grade starts things quick and pushes them right along. I received the first prize offered by Fred. P. Burr & Co., the Middletown seed dealers, for the first bushel of Peep O' Day peas, and they were from the rows grown with your High Grade Phosphate exclusively. I shall use no other fertilizer hereafter.

Very truly yours,

IRA J. FRENCH.

CATALOGUE FREE BY MAIL.

VEGETABLE PLANTS.

A large and choice stock, grown from seeds furnished by ourselves. Our grower is an experienced gardener, and all his plants are thoroughly hardened off and "stocky." Plants sent by express or freight at purchaser's expense. No charge for boxes or packing.

NOTICE. — When a favorable day for planting out comes, in the right season, our local demand for plants is so great as to exhaust the largest stock in a few hours. *Don't wait till the last minute*, but send in orders as soon as you know what plants are needed, and we will fill them at the earliest possible minute.

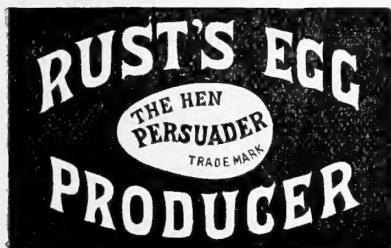

Cabbage, Cauliflower, Celery, Tomato, Pepper, Etc.

NOTICE.

You Can Get Plenty of Eggs.

RUST'S EGG PRODUCER is superior to any other Egg Food for preventing and curing diseases; but we are confident that there is only one real cure for Gapes and Fowl Cholera, and that is our HAVENS' CLIMAX CONDITION POWDER.

It produces eggs without exhaustion.
